MONDAY EVENING, JANUARY 17.

"CHRISTIANITY THE key to the character and career of General Washington" is the title of a discourse that was delivered by Philip Slaughter, D. D., before the ladies of the Mt. Vernon Association, at Pohick Church, last May, and that has recently been printed in pamphlet form. Until it was delivered, the impression existed that nothing new could be said about Washington; but a perusal of it will entirely dissipate that impression, for to the general reader it is full of interesting matter, either really fresh or apparently so from having been forgotten. Then, too, the easy and graceful style of the writer adds much to its attractive ness. It is for sale at the book stores of Messrs. Morrison and Brentano, in Wash-

GEN. FRY delivered an address in New York last Saturday which has created a reat deal of criticism, both favorable and adverse. He said it could hardly be claimed that the selection of men as law-makers proved that the public school system had done anything to improve voters or to purify the franchise. Tweedism, which amazed the people twenty years ago, has grown with the public schools. He argued against compulsory education, holding that general education was not a function of government. There is little doubt, judging from its effects, especially in the South, that the public school system, no matter what else it may have done, has not proved itself to be either an improver of morals or a preventer

As THE hands employed in the factory of Mr. Lorrillard have struck, it is to be presumed either that that gentleman, when he wrote his recent article in favor of the rights of labor, was wrong, or else that he does not practice what he preaches. This is a free for unlawful shooting. practice what he preaches. This is a free and equal country. Every employee in it has the right to work when, where, for whom, and for what he chooses. But, for a like reason, every employer has the right to choose his employees, and to pay them what he thinks his business will afford. All wise employers will go to the limit in the latter respect, for the reason that they know a satisfied laborer will do a great deal more and better work than a dissatisfied one.

FROM WASHINGTON.

[Special Correspondence of the Alexa, GAZETTE, WASHINGTON, D. C., Jan. 17, 1887.

The conference report on the interstate commerce bill, which passed the Senate last Friday night, was called up in the House to day, but its consideration was defeated by a vote of 113 to 138. This does not indi-cate that the report will not be adopted when it shall come up To day is one of the days on which bills can come up under the suspension rule, and members interested in such bills were not willing it with a bill that can come up at any time. It is reported to day that when the interstate bill shall become a law Mr. Atkins, now Indian commissioner, will be appointed one of the commissioners created by that bill, and Mr. Upshur, deputy commis sioner, be promoted. Some of Mr. J. R. Tucker's friends think a place in this commission would suit him, as the salary is \$7 500, and as his age, sixty-three, would militate against his confirmation as associate justice of the District of Columbia court the other place spoken of for him, for the reason that he could retire on full pay after only seven years' service on that court. He says the memorial presented in the Senate the other day by Mr. Hawley, purporting to be from republican citizens of Texas who are denied the rights of citizenship, has no fundation in fact, and that the people of his State have got used to such memorials and take on notice of them.

The resolution offered in the Senate last week by General Mahone, relating to an ice boat on the Potomac, was referred to the commerce committee. That committee forwarded it to the Treasury Department, by which it was returned with the endorse ment that the proper place for the informa tion desired was the War Department. It was then sent to the latter place, and has not been heard from since. This was the day in the House for the call

In the Senate to day Mr. Mahone introduced a bill to improve the road from Petersburg, Va., to the national cemetery at that city; also one to grant the right of way through the Government reservation at Fortress Monroe to the Hampton and Old Point Railroad company, which company proposes to construct a horse car railroad from Hampton to the wharf at Old Point Comfort. Mr. Blair presented a petition then fl-1 and is still at large, from the students of several colored colleges for the passage of the Blair educational bill, though that bill had already passed the Senate. The resolution providing for the celebration in this city of the centennial of the adoption of the Constitution was reported. Mr. Edmunds requested the postoffice committee to report as soon as possible the postal tele-graph bill. The Senate then passed the pensions appropriation, and took up the

He repaired to his rooms and found an alarming change in his condition, suggesting a poisoning of the blood from his constitutional disease. He at once adopted measures to overcome this condition and restore strength. A consulta-tion was also sought with Dr. D. L. Hunt ington, of the army, who agreed in the main with the attending physician. The case was deemed of such extreme gravity that his relatives in the city were informed, and they gathered about him and spared no effort to bring him relief. Some improve ment resulted from the treatment, but towards evening his symptoms became aggra vated, and at the request of his family, Lincoln met Drs. Harvey and Huntington in consultation. His final illness was not accompanied by suffering, and his death was calm and without a struggle.

Alleged Outrage. St. Louis, Jan. 17 .- Mr. Meyer Kaufmann

a well known commission merchant, residing at No 1427 South Broadway, arrived in the city yesterday from Cuba, after an experience there which he will not soon forget, and for which he will ask the United States to demand of the Spanish Government the sum of \$50,000. Mr. Kaufmann left this city in the early part of last month for Mexico, and when at Vera Cruz obtained a passport to Cuba for himself and an interpreter named John Fura. Immediately upon his arrival at Havana, a Spanish officer approached him and without an explanation of any kind, lugged him off to jail and locked him up. It was some time before he comprehended the situation, but be explained as best he could that there was a mistake somewhere. He did not at first mind the matter, thinking that his explanation would result in his release in a short time. Two or three days passed and he was still confined in the jail, having no place whereon to lie but the flagging of his cell, and being furnished with nothing more substantial in the way of food than Melbourne through the recommendation of the prison fare of bread and water. He an English clergyman, and that she would learned that he had swindled merchants in learned that he had swindled merchants in the city of Mexico to the extent of \$27,000. He had been arrested as a man named Meyer, and the clue upon which the Span ish authorities went in the arrest was furnished by his first name and the fact that the swindler was of the same race as himself. For twelve days and as many nights Mr. Kaufmann, was confined in the Spanish dungeon, and after the first few days found himself well nigh starved and stiffened with sleeping on rough stone flagging. An officer at last arrived from the City of Mexico, and he was taken before that personage, who, after examining him, declared he was not the man that he was looking for. On this, the Cuban authorities permitted his release, and he was sent off without a word of apology or explanation. For the loss of I received in money, given with great his time, the loss to his business and the personal indignity of being thrown into a foreign jail without anything resembling a judicial proceeding, he will claim the damages mentioned. Letter from Fauquier.

MARSHALL, Jan. 15th.—With six weeks of the winter season gone, our ice houses filled and supplies of food for man and beast, our people seem to enjoy their wonted contentment and gratitude to the bestower of all our blessings. Though the snow is nearly all melted the sleighing was excellent for a week or so, and the juveniles enjoyed the coasting, etc.

There is now telephonic communication between Marshall and Alexandria; office at Messrs. Whiting and Clark's store, and with Warrenton, Upper Fauquier and Loudoun county stations, office at Mr. Ramy's store. A message to Alexandria costs fifteen cents and to Warrenton ten cents. This valuable enterprise it is said cost the company twenty-five dollars per mile. They have also an annual expense for the use of the 'phones. Our farmers and merchants now enjoy at small expense the benefit of direct connection with business centres. The physician has, also, an advantage to order medical supplies without the delay incito the uncertainties of the mails. Indeed time, space and expense will now be obliterated. As an example of the great boon which the telephone confers, it may be mentioned that one of our prominent farmers lately made purchase of a large lot of cattle, though allowed a day for his final decision. He was prevented by the late cold and stormy weather closing the bargain in person, but did this by telephone only a few hours before a third party came along to

make a higher bid. The writer has been lately favored to ex amine the splendid library of the Mt. Vernon family, now in possession of Mr. Law-rence Washington, the eldest son and heir of the late Col. John A. Washington. After the sale of Mount Vernon Col. Washington purchased "Waveland," a fine estate from the late ex Governor Bedford Brown, of North Carolina-this residence is only a few miles from Marshall-the house on which it is said Mr. Washington's father expended ten thousand dollars in improvements. It has spacious parlors, chambers and a cozy library room. There are about a thousand volumes, manuscripts, periodicals etc., in this library, besides containing the most valuable and sacred relics of the Wash ington family-portraits, pictures, includ-ing the renowned pitcher picture, statuette and portrait of the immortal George Washington and the sabre which the latter wore as a dress sword, and perhaps was the inspiration of the ode by our lyric poet, Geo. P. Morris, entitled "The Sword and the Staff." and placed in a car attached to a freight train and taken down the country for interment in the family burying ground on Mrs. Tunstall's farm, near Little Plymouth, in King and Queen county. Those who accompanied the remains were W. B. Cluverius, brother of the dead man; W. H. Walker, a relative; W. R. McGeorge; Fairfax Monta gue, of Richmond, formerly of King and Queen county; W. S. Courtney, commissioner of the revenue for King and Queen county, and one of the witnesses at the trial, Dr. E. Courtney, with whom the prisoner ad an office. Willie Cluverius was deeply had an office. Willie Cluverius was deeply affected and he sobbed aloud when the coffin was placed on the train. The body is said to have looked life-like, the bruised neck being concealed from view. The room in which Cluverius was confined prior to his execution has not been opened since the key was turned after he marched out to meet the fate awaiting him.

Before his execution Cluverius left with his keeper, a statement of what disposition he wished made of his effects and of the borrowed books which he left on his table.

Lillian Madison's trunk is still in the Sergeant's office at the City Hall, in Richmond, and contains her clothing and the other articles which were in it when it was brought down from Bath county. The views of Rev. Dr. Hatcher, the spiritual adviser of the condemned man, as to his guilt are len him, he had not taken papers with him to prove himself a citizen of the United as follows: When he first began to visit the prisoner he was strongly inclined to believe in his guilt. But, as it is a tenet of the Baptists that rerequisite to forgiveness by God, and as the demned man stoutly and persistly maintained his innocence to the last, he (the Doctor) could not but believe he must be innocent of the crime for which he was convicted if he was really a true

Christian. There are many others, however, who express and believe in a totally different theory. Such as these reasons: that a man who could lead a Sunday school and sing psalms so lustily one day and he ready to frequent houses of ill-repute the next; who could write fond letters to hiz cousing next; who could write out receives to me cousing Fannie at one time, and then after betraying her, assert that he had no more than a passing acquaintance with her could not be a sincere believer in the doctrines of Christ and in all probability was an infidel, with no hope of the future and no belief in a hereafter.

In his book Cluverius stoutly maintains his in-nocence from first to last, and alludes to his cons-in and her alleged imperfections, as F. L. Madison. He does not even speak of her as his cousin, as Fannie Lillian, or even as Miss Madison, but as if she was a person beneath his contempt, only as "F. L. Madison." He declares contempt, only as "F. L. Madison." He declares on one page of the book that he had scarcely ever known her; had never been intimate with her; and had heard more of her during his trial than ever in his life before, while on the very next page he publishes a letter he admits to have writ-ten her, had not a "Place Lille".

An article like Ely's Cream Balm has long been desired, and now that it is within the reach of sufferers from Catarrh, Hay Fever and Cold in the Head, there is every reason to believe they will make the most of it.
